Installation

Directories & File Structure

The initial directory structure of a HUBzero install.

```
/hubzero
 /administrator
 /cache
 /components
 /images
 /includes
 /language
 /libraries
 /logs
 /media
 /modules
 /plugins
 /site
 /templates
 /tmp
 /xmlrpc
 configuration.php
 index.php
 index2.php
htaccess.txt
 robots.txt
```

While this looks very much like a typical Joomla! 1.5 install, there are some noticeable exceptions. Some directories vital to HUBzero functionality have been added. A quick explanation of the additional directories:

/site

This is where HUB specific data such as member pictures, files used in wiki pages, etc. is stored.
