

ssh and sftp

Install

These packages aren't working properly. Please don't install until this message is removed. If you have installed them already please purge them using the "purge" option instead of "install"

```
# apt-get install hubzero-ssh
# apt-get install hubzero-sftp
```

Configure

These modules aren't working properly. Please don't install until this message is removed. If you have configured them already please disable them using the "--disable" option instead of "--enable"

Support for basic ssh/sftp configuration was added with hubzero-cms_20130131.1

```
# hzcms configure ssh --enable
# hzcms configure sftp --enable
```
