

2.1.6

May 2017 Commit Short Notes

Groups

- Fixed various issues with adding iCal calendar to the list of group calendars.
- Fixed issues with adding events to a Group calendar that don't have a time zone specified.
- Fixed calendar so that the timezone set on an event is shown accurately on the event details page.
- (Foundation funded) Adding feature to set a default invite message for all groups.

Members

- Adding indicator for users as to what authentication providers the account is linked to.

Publications

- Converting administrator interfaces for Categories and Licenses to use the ORM.

Resources

- Making sure authors cannot review their own Resource.
