2.1.6

May 2017 Commit Short Notes

Groups

- Fixed various issues with adding iCal calendar to the list of group calendars.
- Fixed issues with adding events to a Group calendar that don't have a time zone specified.
- Fixed calendar so that the timezone set on an event is shown accurately on the event details page.
- (Foundation funded) Adding feature to set a default invite message for all groups.

Members

• Adding indicator for users as to what authentication providers the account is linked to.

Publications

Converting administrator interfaces for Categories and Licenses to use the ORM.

Resources

Making sure authors cannot review their own Resource.
