Billboards

Overview

Billboards is a component that allows you to create a carousel effect on your home page. Slides can be designed with an image in the background and a short piece of text that goes over the image. Many use this feature to promote [Super Groups](#) or popular [Tools](#).

Uploading an Image

1. To upload an image, open the **Billboard** you would like to edit
2. Click **Upload Image**, located underneath the **Background Image** field
3. Click the **Browse** button located on the bottom of the **Media Manager** pop-up, and locate and select the picture you would like to upload
4. Click **Start Upload**. You should then see your picture appear as an option
5. Copy the file name and paste it into the **Background Image** field
