

Plugins

Overview

Some plugins will have a set of parameters that can be configured. These parameters can determine what functionality is presented to the user, be a default set of user options, or settings needed for the plugin to function properly. Accessing and adjusting these parameters is quick and easy.

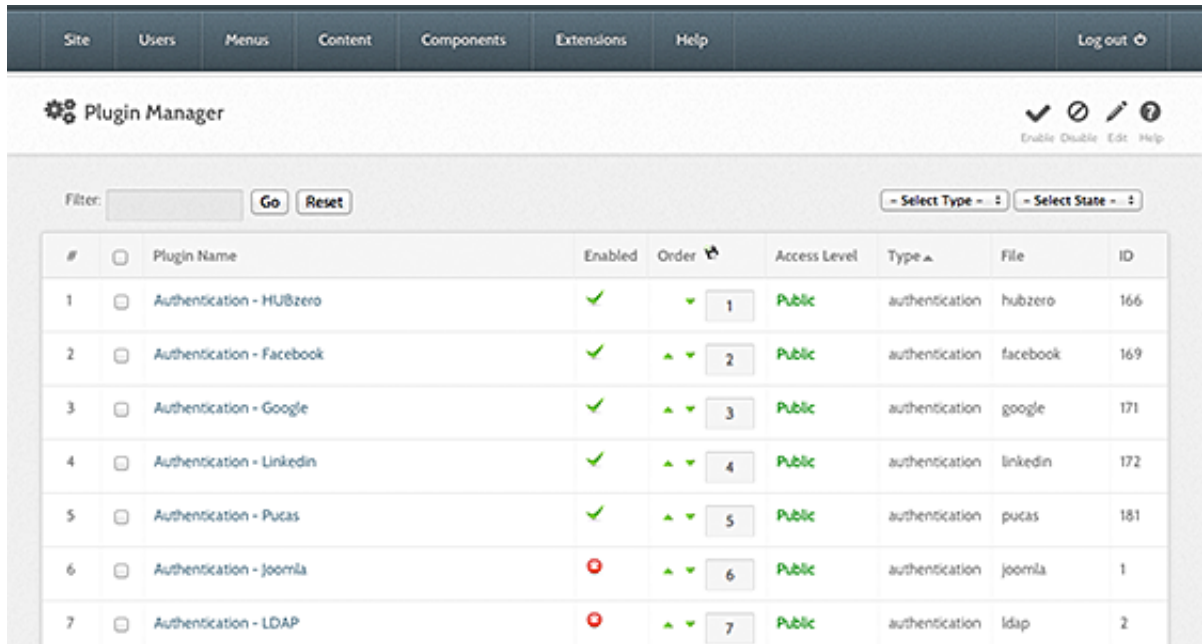

Note: Not all plugins will have configurable parameters. For those that do, the configurations apply **only** to that plugin and should not affect component configuration, module configuration, or site configuration.

1. First login to the administrative back-end.
2. Once logged in, go to the "Plugin Manager." The Plugin Manager can be found by selecting "Extensions" > "Plugin Manager" from the drop-down menu on the back-end of your HUB installation.

3. Choose the plugin you wish configure from the available list.

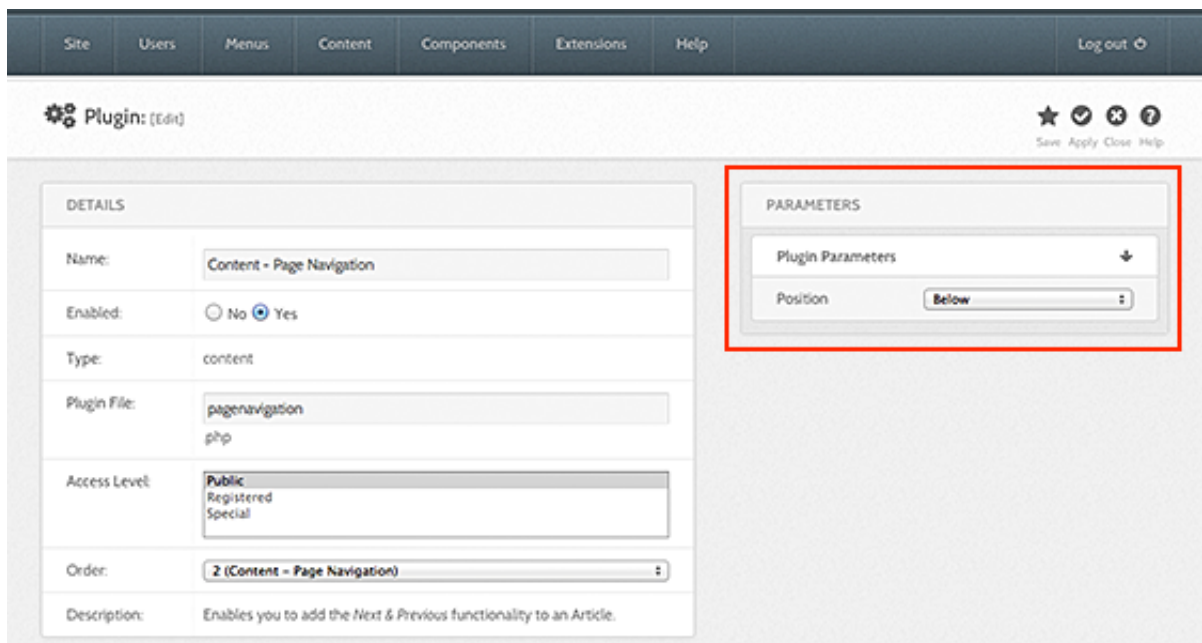

PLUGINS

The screenshot shows the Joomla! Plugin Manager interface. At the top, there is a navigation bar with tabs for Site, Users, Menus, Content, Components, Extensions, Help, and Log out. Below the navigation bar, the title "Plugin Manager" is displayed. A filter section includes a "Filter:" input field, "Go" and "Reset" buttons, and dropdown menus for "Select Type" and "Select State". The main content is a table listing installed plugins.

#	<input type="checkbox"/>	Plugin Name	Enabled	Order	Access Level	Type	File	ID
1	<input type="checkbox"/>	Authentication - HUBzero	✓	1	Public	authentication	hubzero	166
2	<input type="checkbox"/>	Authentication - Facebook	✓	2	Public	authentication	facebook	169
3	<input type="checkbox"/>	Authentication - Google	✓	3	Public	authentication	google	171
4	<input type="checkbox"/>	Authentication - LinkedIn	✓	4	Public	authentication	linkedin	172
5	<input type="checkbox"/>	Authentication - Pucas	✓	5	Public	authentication	pucas	181
6	<input type="checkbox"/>	Authentication - Joomla!	✗	6	Public	authentication	joomla	1
7	<input type="checkbox"/>	Authentication - LDAP	✗	7	Public	authentication	ldap	2

4. Once the page has loaded, find the "Parameters" grouping, found on the right-hand portion of the screen.

The screenshot shows the Joomla! Plugin: (Edit) interface. At the top, there is a navigation bar with tabs for Site, Users, Menus, Content, Components, Extensions, Help, and Log out. Below the navigation bar, the title "Plugin: (Edit)" is displayed. The interface is divided into two main sections: "DETAILS" on the left and "PARAMETERS" on the right. The "PARAMETERS" section is highlighted with a red box and contains a "Plugin Parameters" dropdown menu and a "Position" dropdown menu set to "Below".

DETAILS

Name: Content - Page Navigation

Type: content

Plugin File: pagenavigation.php

Access Level: Public, Registered, Special

Order: 2 (Content - Page Navigation)

Description: Enables you to add the Next & Previous functionality to an Article.

PARAMETERS

Plugin Parameters

Position: Below

5. Adjust the available parameters as needed and then click "Save" (the icon that looks like a floppy disk) in the upper right portion of the page. Changes take affect immediately.

PLUGINS

The screenshot shows the Joomla! administration interface for editing a plugin. The top navigation bar includes links for Site, Users, Menus, Content, Components, Extensions, Help, and Log out. The main header displays 'Plugin: [Edit]' and a 'Save' button with a star icon, which is circled in red. Below the header, the interface is divided into two main sections: 'DETAILS' and 'PARAMETERS'.
