

Feed Aggregator

What is the Feed Aggregator?

The Feed Aggregator is a component which allows feed managers to collect articles from several RSS feeds and to selectively combine them into one site-sponsored RSS feed.

Note: The feed aggregator controls are only available to hub managers. Hub users can access the feeds, but cannot create or add to the feed.

Accessing the Feed URL

1. Navigate to <https://yourhubname.org/feedaggregator>.
2. To view the feed URL, click on the “Generate RSS Feed” button.
3. The aggregator link will be generated into a pop-up box with a blue highlighted link.
4. Copy the link into any readers that accept RSS feeds as input.
