

Resources

Resource Types

Users may contribute many types of resources. The type of Resource a user can contribute will vary from Hub to Hub, as the administrator can modify the available Resource types. The default resource type list includes:

- **Courses:** University courses and short courses with lectures and associated teaching materials.
- **Downloads:** Spreadsheets and other items that are available for download but don't fit into other categories.
- **Publications:** Articles, technical reports, theses, and other documents, usually in PDF or DOC format.
- **Seminars:** A type of lecture, usually recorded with voice or video.
- **Series:** Collections of lectures, publications, and other resources presented as a list.
- **Teaching Materials:** Supplementary materials such as study notes, guides and other documents that are used in training or teaching.
- **Tools:** Simulation and modeling tools that can be accessed via a web browser.
- **Workshops:** A collection of lectures, seminars, and materials that were presented at a workshop.

Creating a Resource

You must be logged in to your HUB account to create a Resource.

Starting a Resource

1. Navigate to <https://yourhub.org/resources/>
2. Click "Submit a Resource".
3. Click "Get Started".
4. On the *Resources: New* page, click on the type of Resource that closely matches the Resource being submitted.

Step 1: Compose

1. Under *About*, provide a title in the "Title" textbox.
2. In the "Abstract/Description" textbox, provide a description of the contribution. This is typically one or two paragraphs.
3. Images can optionally be included within the "Abstract/Description" textbox:
 1. Under *Manage Files* click "Choose File".

This is NOT where the main Resource file(s) are uploaded. That is done during

the next step: Attach.

2. Locate the image to include and click "Open".
 3. Click "Upload".
 4. A URL of the image will appear under the *Manage Files* section. Copy this URL.
 5. Click into the "Abstract/Description" textbox so that the text cursor is located where the image should appear.
 6. On the text editor menu for this textbox, click the image icon.
 7. Paste the copied URL of the uploaded image into the "URL" textbox.
 8. Click "OK".
4. Under the *Details* section, provide any additional information in the relevant textboxes. These fields will differ depending on the type of Resource.
 5. Click the "Next" button below to save a continue to the next step.

Step 2: Attach

1. Under *Attachments* a file or add a link can be added.
2. To upload a file, click on the "Click or drop file" box.
3. Select the file to attach and click "Open".
4. Alternately, drag and drop the file from the your computer into the "Click or drop file" box.
5. When the file has successfully uploaded, it will show underneath *Attachments*.
6. To add a link click the "Click to add link" button.
7. Provide the URL of the link and click "OK".
8. To rename files or links, double click on the name that currently shows, provide a new name, and click "Save".
9. Click the Up/down arrows on the right side of the attachments to rearrange how they are ordered.
10. Click the trash can icon on the right side to remove a file or link.
11. Click "Next" to move to the next step when finished adding and organizing attachments.

Step 3: Authors

1. Optionally, under *Group Ownership* select a group from the "Group" drop down to associate the resource with a group.
2. If a group is selected, the access level of the Resource can be changed by selecting the level from the "Access Level" drop down. This controls how much access non-group members have. The access levels are:
 - **Public** - Anyone may view/download the Resource.

Public is the only access level that can be used if a group is not assigned.

- **Protected** - Abstract is visible to all, files accessible to group members only.
 - **Private** - Entire resource is only visible to group members.
3. Under *Authors*, type the names of all the authors that contributed to this Resource in the "Enter names.." textbox, separated by commas. If their name appear in the auto-

RESOURCES

completer drop-down, be sure to click on the name that shows so that it correctly associates with their HUB account.

4. Click "Add" when finished listing out the authors.
5. The authors will appear below the "Enter names" text box.
6. Optionally, provide the author's organization in the "Organization" textbox directly below the author's name.
7. Select the appropriate role (*Author* or *Submitter*) for each user from the Role drop down list (shows "Author" by default).
8. Click "Save Changes" anytime changes are made to the Organization or Role of users. Otherwise, the changes will not be remembered.
9. To change the order the authors are listed in, use the up/down arrows to push them up and down the list.
10. Click the trash can icon to the right of an author's name to remove the author.
11. Click "Next" below to move to the next step.

Step 4: Tags

1. In the "Assigned Tags" textbox, start typing a keyword, phrase, or category that can be applied to this Resource.
2. An auto-completer list box will appear with a list of suggestions. If the word appears in the list or a word appears that is closely related to it, click on the term in the list.
3. If no terms show in the list that close match the term provided, type the full word or phrase and then press Enter or type a comma to start typing another word.
4. After adding tags, click "Next" to move to the next step.

Step 5: Review

1. Under *Authorization*, read the paragraph:

I certify that I am the owner of all submitted materials or am authorized by the owner to grant license to its use and that I hereby grant example license to copy, distribute, display, and perform the materials here submitted and any derived or collected works based upon them in perpetuity. example may make modifications to the submitted materials or build upon them as necessary or appropriate for their services.

Check the box next to it to indicate agreement.

2. From the "Select License..." drop down, select the appropriate license. The license can be viewed in the box directly below.
3. A preview of the Resource page can be viewed below.
4. Click "Submit Contribution" when the Resource is ready to be published.

A Resource cannot be removed from the HUB once it is published. A Resource can only be removed from the HUB by special request by submitting a Support ticket.

Editing a Resource

You must be logged into the HUB to edit a Resource.

1. Navigate to the Resource page of the Resource to edit.

Only the author or submitter have the ability to Edit the Resource.

2. Click on the title of the section to edit (e.g. *Compose, Attach, Authors, Tags*).
3. Click "Next" below when changes are made so they are saved.
4. Click to the "Review" section and click "Save" when finished.
