Making a List of Available Wiki Pages

When a new wiki page is created, there is really no way to access the newly created wiki unless you know the URL of it (see Creating a Wiki Page tutorial to figure out the URL of your wiki page). *A wiki macro (or custom function to insert dynamic content in a page) can be added to a page to display a list of existing wiki pages within a given wiki.*

To add a wiki macro that generates a list of all wiki pages:

1. Navigate to the “Edit” section of the wiki page you would like to edit.
2. Type in this wiki macro **[[TitleIndex]]** where you want the list to appear in the wiki page.
3. Click the “Submit” button.
4. You will then see a bulleted list of all available pages where you added the macro.

Note: This macro allows you to provide a list of all wiki pages in that group. If you would like to view an alphabetical list, click on all pages at the top of the wiki page.

Deleting a Wiki Page

1. Log in to the Hub and locate the Wiki page that is to be deleted.
2. Once the Wiki has been located, open the Wiki to preview.
3. On the right hand side, locate the “Delete” button and click it.
4. Confirm the deletion and then the Wiki will be permanently deleted from the Hub.
