

# Feed Aggregator

## What is the Feed Aggregator?

The Feed Aggregator is a component which allows feed managers to collect articles from several RSS feeds and to selectively combine them into one site-sponsored RSS feed.

**Note:** The feed aggregator controls are only available to hub managers. Hub users can access the feeds, but cannot create or add to the feed.

## Accessing the Feed URL

1. Navigate to **<https://yourhubname.org/feedaggregator>**.
2. To view the feed URL, click on the **Generate RSS Feed** button.
3. The aggregator link will be generated into a pop-up box with a blue highlighted link.
4. Copy the link into any readers that accept RSS feeds as input.
