

Resources

Types

Users may contribute many types or categories of resources. All HUBs come with a default set of types. They are:

- Animations
- Courses
- Downloads
- Learning Modules
- Notes
- Online Presentations
- Publications
- Series
- Teaching Materials
- Tools
- Workshops

Some types can be contributed by any user via the front-end "contribute" component. Some types, such as Learning Modules or Series cannot presently be contributed via the front-end due to their complex nature (more on this below).

Creating New Types

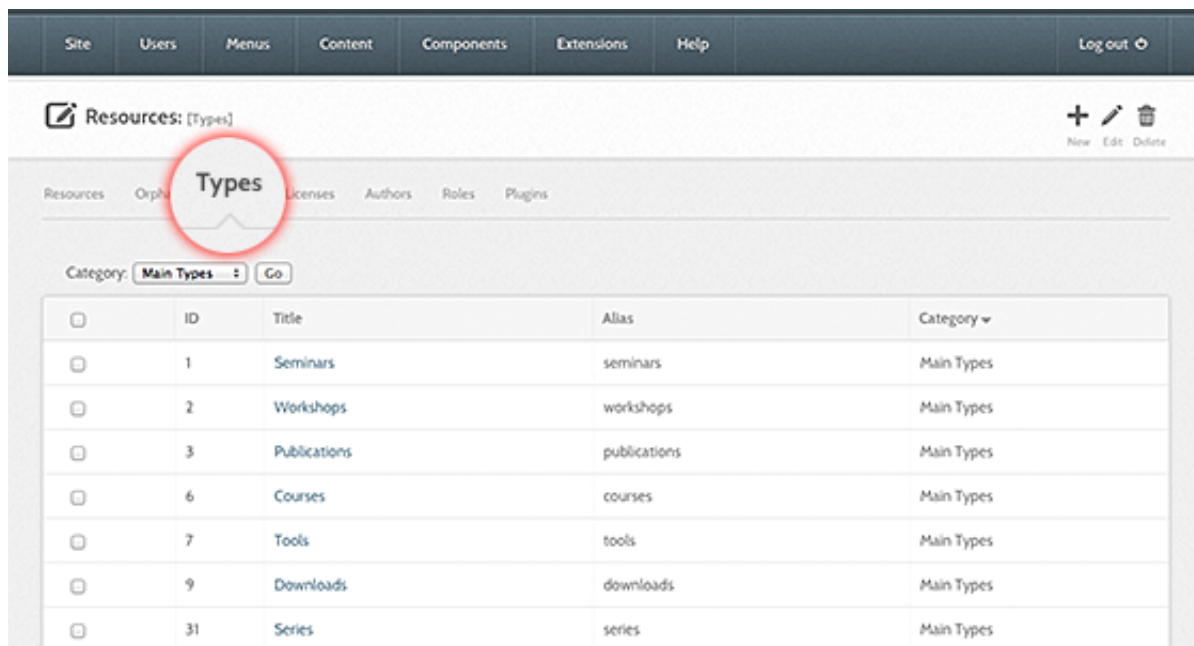

The default list of types may not completely suit your needs and you may wish to add your own, new types. This can be done from the administrative back-end of the site by following these steps:

1. Login to the administrative back-end.
2. Once logged in, find "œComponents"• in the main menu bar located toward the top of the page. You should be presented with a drop-down menu containing a list of all the installed components on your HUB.
3. Select "Resources"• from the list.

RESOURCES

Once the "Resources Manager" page has loaded, select "Types" from the sub-menu found under the "Resources Manager" title.

You should now be presented with a list of all the "Main Types" (selected by default). There are multiple categories of types. If not already selected, select "Main Types" from the "categories" option found directly above the list or navigate the listing until you see those designated as "Main Types". These are the primary types of resources users will be able to contribute, browse, etc.

Click the title of a type to edit it or click "New Type" (green circle with a plus sign in the middle) from the toolbar on the top right of the page.

RESOURCES

<input type="checkbox"/>	ID	Title	Alias	Category
<input type="checkbox"/>	1	Seminars	seminars	Main Types
<input type="checkbox"/>	2	Workshops	workshops	Main Types
<input type="checkbox"/>	3	Publications	publications	Main Types
<input type="checkbox"/>	6	Courses	courses	Main Types
<input type="checkbox"/>	7	Tools	tools	Main Types
<input type="checkbox"/>	9	Downloads	downloads	Main Types
<input type="checkbox"/>	31	Series	series	Main Types

Fill in the title field (what you want this type to be called) and select "Main Type" from the category list. You may then optionally fill in a description (longer explanation) of this type.

Plugin	Active
Resources - Share	<input checked="" type="radio"/> off <input type="radio"/> on
Resources - Favorite	<input checked="" type="radio"/> off <input type="radio"/> on
Resources - Versions	<input checked="" type="radio"/> off <input type="radio"/> on
Resources - Reviews	<input checked="" type="radio"/> off <input type="radio"/> on
Resources - Questions	<input checked="" type="radio"/> off <input type="radio"/> on
Resources - Wishlist	<input checked="" type="radio"/> off <input type="radio"/> on
Resources - Usage	<input checked="" type="radio"/> off <input type="radio"/> on
Resources - Related	<input checked="" type="radio"/> off <input type="radio"/> on

Decide if this resource type can be contributed from the front-end "contribute" component by checking/unchecking the "contributable" checkbox. Due to the complex structure of some resources, the front-end "contribute" component cannot handle the creation of some resource types. This checkbox ensures what such a resource type does not accidentally show up as a type the user can self contribute.

Next, you may decide what custom fields you wish to have filled in by the user for that resource type. Options are single-line text boxes, multi-line text areas, checkboxes, select list (pull down), radio options, pre-defined options (language list, etc.). A field may be required or not.

RESOURCES

The screenshot shows the 'CUSTOM FIELDS' configuration interface for 'Resources - Sponsors'. At the top right, there are 'off' and 'on' toggle buttons. The main area contains a table with the following data:

Field name	Input type	Required	Options
A field	Single-line text box	<input type="checkbox"/>	(none)
Language	Language List	<input type="checkbox"/>	(none)
Options	Select list	<input checked="" type="checkbox"/>	Lists include blank "Select..." option unless made a required field Option: one Option: two + Add new option

At the bottom right, there is an [+ Add new row](#) button.

Click "Save" (icon looks like a floppy disk) in the toolbar on the top right of the page.

The screenshot shows the 'Resource Type' configuration page. The top navigation bar includes 'Site', 'Users', 'Menus', 'Content', 'Components', 'Extensions', 'Help', and 'Log out'. The page title is 'Resource Type: [New]'. A red circle highlights the 'Save' button, which has a star icon and a '3' notification badge. The main content area is divided into two sections:

ITEM DETAILS

- Title: White papers
- Alias: whitepapers (If no alias provided, one will be generated from the title.)
- Category: Main Types
- Contributable: Users can contribute this type from the front-end
- Linked file action: Determine by file extension
- Description: White papers and maybe even some manilla papers

PLUGINS

Plugin	Active
Resources - Share	<input checked="" type="radio"/> off <input type="radio"/> on
Resources - Favorite	<input checked="" type="radio"/> off <input type="radio"/> on
Resources - Versions	<input checked="" type="radio"/> off <input type="radio"/> on
Resources - Reviews	<input checked="" type="radio"/> off <input type="radio"/> on
Resources - Questions	<input checked="" type="radio"/> off <input type="radio"/> on
Resources - Wishlist	<input checked="" type="radio"/> off <input type="radio"/> on
Resources - Usage	<input checked="" type="radio"/> off <input type="radio"/> on
Resources - Related	<input checked="" type="radio"/> off <input type="radio"/> on

New resource types should now be available as a resource option and changes to types should take affect immediately.

Enabling LinkedIn Share Plugin

Note: You have to be logged into your hub in order to complete the following tasks.

RESOURCES

1. Click the “Components” tab and then select the “Resources” button located in the drop-down.
2. On the Resources page, select the “Plugins” tab.
3. Click the title of the “Resources-Share” plugin.
4. Under the “Basic Options” section, enable the LinkedIn icon share plugin by changing the radio button to “Yes”.
5. Click the “Save & Close” button to save the changes and navigate back to the Resources page.
