McAfee VirusScan Enterprise safeguards systems and files from viruses and other security risks.

[Installation instructions can be found here - http://support.purdue.edu/goldanswers/173803](http://support.purdue.edu/goldanswers/173803)

McAfee VirusScan Enterprise safeguards systems and files from viruses and other security risks. It detects and removes malware, and configures antivirus policies to manage quarantined items.

- Real-time antivirus scanning ensures all systems, including remote locations, are protected from threats.
- Guards against buffer-overflow exploits that target vulnerabilities in Microsoft applications.
- Uses the McAfee ePolicy Orchestrator centralized management console to deploy policies, manage security alerts, and review automated reports.

The screenshot shows the top navigation bar of the Purdue University Community Hub. The navigation menu includes: PURDUE UNIVERSITY COMMUNITY HUB, RESEARCH GROUPS, SOFTWARE DOWNLOADS, SERVICES, TOOLS, ABOUT THE COMMUNITY HUB, and COMMUNITY HUB SUPPORT. Below the navigation is a dark grey 'SHOPPING CART' header. On the right side of this header, there is a button labeled 'Your orders' with a red arrow pointing to it. The main content area of the cart is white and contains the text 'Cart is empty' on the left and a form on the right asking 'Do you have a promo or coupon code?' with an input field and an 'Apply' button. At the bottom of the page, there is a dark grey footer with the text 'copyright 2015 Purdue Community Hub, a Purdue University Project powered by HUBzero, a platform for scientific collaboration' and a gold footer bar with the links 'CONTACT' and 'COPYRIGHT COMPLAINTS'.

Your previously purchased orders will display and you may click on the download link to re-download an item if it was a software product or downloadable file.
