Tools

Managing Tools

While Tools can only be managed through the tool pipeline, tool sessions can be managed on the backend in the /administrator interface.

Managing the Maximum Open Tool Sessions per User

User session limits (and tool preferences) can be found by following these steps:

- 1. Navigate to /administrator interface
- 2. Hover over Components and from the drop-down select Tools
- 3. Click on User Preferences
- 4. Number of sessions is dictated by the session class
 - 1. Default Class = 3
 - 1. Add another class by clicking "Custom" class, then enter the number for the user
- 5. If a user doesn't have an entry, you can create one for them
