

# Tool Repository Structure

Repository template for Jupyter HUBzero tool

.keep files are present to force git to track initially empty directories. Should the directories become populated the .keep file can be removed.

- bin
  - .keep
- data
  - .keep
- doc
  - .keep
- examples
  - .keep
- middleware
  - invoke
- rappture
  - .keep
- src
  - .keep
- README.md

## Invoke script template

```
#!/bin/sh
```

```
#
```

```
# jupyter tool
```

```
#
```

```
/usr/bin/invoke_app "$@" -t hubtoolshortname \  
-C "start_jupyter -t -T @tool hubtoolshortname.ipynb" \  
-u anaconda-6
```
