

Video Tutorials

Overview

Video tutorials provide step-by-step instructions and walkthroughs of various tools and components that hub users may find useful.

How-To Videos

The HUBzero team is proud to present a growing series of How-to videos hosted on YouTube.

First, if you are new to our site and would like to know exactly what a Hub is and how Hubzero fits into the scientific community, watch this video produced by Michael McLennan, the former Director of HUBzero Platform for Scientific Collaboration.

In order to start using Hubzero or any other Hub, learn how to create an account and use your user dashboard by watching this short tutorial.
