

Slide 1

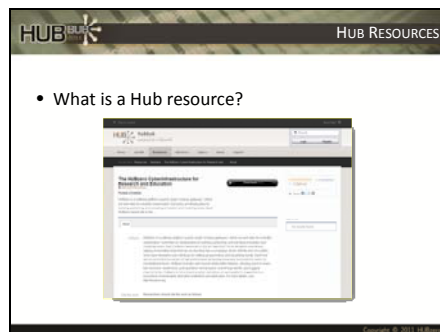

Slide 2

Mission statement: by the end of this presentation, you should be able to understand the settings around resources on the hub, create all of the standard resources, and properly set their access level.

Slide 3

Hub resources are different than article pages – these are/can be user submitted (as a hub admin, you'll still want to know how to submit resources) Hub resources have an "action" item (download document, launch tool, watch presentation, etc...) Hub resources have reviews, stats, supporting docs, etc...

Slide 4

HUB RESOURCES CONTINUED...

- Backend vs. frontend publication process
- Resource "Types" settings
  - Setting which resource types are publishable via the frontend
  - Defining the fields available on a given resource type

Copyright © 2011 HUB

There are two ways to submit a resource... (at least from the administrator's perspective)  
 You can customize which resources can be contributed by users from the frontend, and you can set what fields are available for those resources. You can even rename or create new categories.  
 NOTE: NEVER rename/delete tool resource type! That is the only one that needs to stay the same.

Slide 5

HUB RESOURCE "PARAMETERS"

- Resources – Global Configuration
  - Approving or auto-approving resources
    - Nikki will discuss further during her talk on Daily Maintenance and Administrative tasks

Copyright © 2011 HUB

This parameter allows you to customize whether or not user submitted resources must be approved before showing up on the hub.

Slide 6

HUB ACCESS LEVELS / PRIVACY SETTINGS

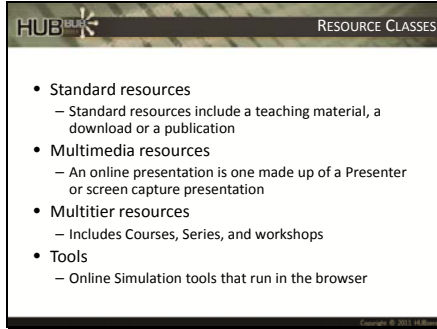

- Public
  - Anyone may view/download the resource
- Protected
  - Abstract is visible, files restricted to group members
- Private
  - Only visible to group members

Copyright © 2011 HUB

NOTE: A resource doesn't have to be protected or private to be associated with a group, but it does have to be associated with a group if it is protected or private.

Slide 7

A slide titled "HUBBUNK RESOURCE CLASSES" with a list of resource types:

- Standard resources
  - Standard resources include a teaching material, a download or a publication
- Multimedia resources
  - An online presentation is one made up of a Presenter or screen capture presentation
- Multitier resources
  - Includes Courses, Series, and workshops
- Tools
  - Online Simulation tools that run in the browser

Copyright © 2011 HHub

Standard resources usually have a download button (word doc, pdf file, etc.)

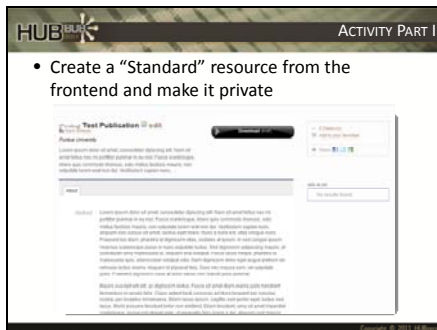

Multimedia resources usually have a play button, and a presentation pops open in a box (adobe breeze or captivate files).

Multitier resources usually have a view series or view course button, that in turn takes you to a list of associated/child resources.

Tools usually have a launch tool button. NOTE: This isn't necessarily how resources are classified on the hub, I just made this up to help keep them straight in my mind.

If you're interested in Tools, be sure to check out the presentations from breakout session 3: Creating and Deploying Scientific Tools.

Slide 8

A slide titled "HUBBUNK ACTIVITY PART I" with a list of instructions:

- Create a "Standard" resource from the frontend and make it private

The slide shows a screenshot of a web form titled "Text Publication" with fields for "Title", "Author", "Abstract", and "Full Text".

Copyright © 2011 HHub

See "Solutions" handout for detailed instructions

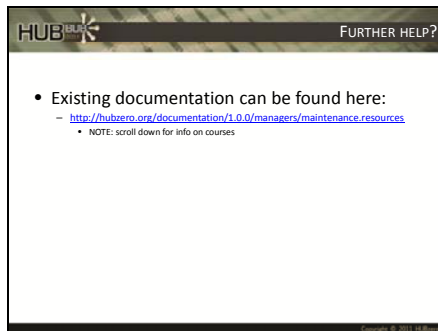

Slide 9

The screenshot shows the HubZero 'ACTIVITY PART II' interface. At the top, it says 'HUBZERO' and 'ACTIVITY PART II'. Below that, there is a bullet point: '• Create a "Multitier" resource on the backend and make it public'. The main content area shows a form for creating a course, with fields for 'Course Name', 'Description', and 'Status'. There are also buttons for 'Save' and 'Cancel'. The footer of the slide says 'Copyright © 2011 HubZero'.

See "Solutions" handout for detailed instructions

Slide 10

The screenshot shows the HubZero 'FURTHER HELP?' slide. At the top, it says 'HUBZERO' and 'FURTHER HELP?'. Below that, there is a bullet point: '• Existing documentation can be found here:'. Underneath this, there is a sub-bullet point: '- <http://hubzero.org/documentation/1.0.0/managers/maintenance.resources>'. A further sub-bullet point says: '• NOTE: scroll down for info on courses'. The footer of the slide says 'Copyright © 2011 HubZero'.
